You want an IT company that makes a difference. One that simplifies IT complexity. You need Panoptics.

Panoptics is an innovative IT consultancy focussed on simplifying complexity which was founded with a defining principle to deliver IT services and solutions with a difference.

Panoptics' comprehensive offering covers the complete spectrum of IT requirements including [Managed Services](#), [Supply Services](#), [Datacentres & Connectivity](#)

#image not found or type unknown

Starting in February 2012 with a frank, open and honest approach. Panoptics began as a collective of Infrastructure, Network and Service Experts who grew frustrated of the way the market was operating, so decided to do something about it.

#image not found or type unknown

Our founding principle and new approach to IT has facilitated rapid growth and allowed us to develop an impressive client roster including many SMB's as well as established brands such as The [Royal Opera House](#), Lords Cricket Ground, Clarion Events, The Brewery & London's Olympia Exhibition Centre.

Since our formation, we have built a company of highly skilled network and infrastructure specialists, bringing together an enviable world class team with experience in designing, implementing and supporting enterprise level network and infrastructure deployments to a wide range of industry sectors.

Working with Panoptics

We firmly believe partnership is key and where possible we will enable customers to see all of the factors that affect the designs ensuring synergy between operational delivery and IT strategy. As a result the service we provide will be better, more efficient and tailored specifically to your needs.

We are proud of what we have achieved, the work we deliver, our dedication to always doing things the right way and the relationships we have fostered with both clients and industry partners as a result. With this approach, we feel confident that the future is bright for our clients and Panoptics alike.

We also strongly believe in and deliver a robust quality management and information security approach. For this reason, Panoptics is both ISO 9001 and ISO 27001 certified, providing our clients with the reassurance that their data, information

Why Panoptics?

We are not your average IT Company. We don't believe in traditional 1st line "log and flog" or the supply of a service to any customer without truly understanding their specific requirements first – our customers deserve better! Similarly, we don't believe that there is a one size fits all solution when it comes to any service we offer, which is why our consultants design and deliver all services in conjunction with our customers. We also recognise that ongoing flexibility is key in the current technological climate and the Panoptics Infrastructure has been designed from the ground up with this in mind, giving us the ability to provide a complete service with the adaptability to suit any specific business, sector or size.

Our Ethos

Everyone in our customer's organisation is important and any service we provide needs to consider this foremost. The infrastructure needs to deliver the right level of Availability, the Service Design needs to cater for whichever communication channel is the easiest to use and the Management Information needs to reflect the culture of the customer so that we can all quickly see what is working and what requires development.

Our Mission

The Team

One of the things that sets Panoptics apart is our exceptional team of experts.

Panoptics committed from the outset to only employ staff who are genuinely passionate about the industry and making a difference within it. So today, we are exceptionally proud of the family we have created, the breadth of skills it contains and the dedication to delivering excellent service that are culture engenders.

With a huge range of experience, the team incorporates individual specialisms including Network Consultants, System Architects, Project Managers, Software Engineers & Service Desk Managers – all from diverse backgrounds and industry sectors which gives Panoptics the experience to provide a holistic service to any business.

Making sure they are personable, real, honest and straight-talking at all times, every member of our team has the ability to resolve issues on the fly and deploy creative, innovative solutions to business problems as standard – which we think you'll agree with, is of great value to all our customers and makes us stand out from competitors.

Management Team

Graham Gee

Managing Director

A proven IT leader with the tenacity and strategic mindset to manage and bring digital transformation across many different market sectors ranging from Futures and Options, Advertising, Events, Retail and Property Development. Highly experienced in managing IT delivery through periods of change, including PLC acquisitions, de-mergers and disposals, Graham brings a wealth of knowledge and added value for all of Panoptics customers. His experience ensures Panoptics deliver not only quality to

the markets we serve but also competitive advantage to the end users we support.

Mark Brookbanks

Founding Director

With a background in Forensic Sciences and Project Management, Mark is diligent and scientific in approach. His meticulous attention to detail and relentless questioning ensures all factors & potential implications have been considered in the delivery of Panoptics services ensuring true value is obtained by all of our clients.

Andy Lang

Technical & Founding Director

Out and out straight talking techie. Andy has a background in the events industry, a fast paced sector where IT failure is not forgivable, which has led to his enviable skill set and capability of fixing literally anything. A staunch believer in simplifying IT, Andy is dedicated to innovation and designing new solutions that rationalise overcomplicated processes.

Technology Partners

Panoptics only works with enterprise class technology partners who share our commitment to developing IT solutions of the future. All of our partners are recognised global leaders within their respective specialism, enabling Panoptics to deliver the very latest cutting edge services, solutions and products direct to our customers.

Our technology partners include Microsoft, VMware, HP, VEEAM, Virgin Media Business, Cogent Communications, Level Three, Belcom, VeloCloud and Mimecast – all benefitting from aggressive pricing structures which we always ensure are passed on to our end customers.

We also strongly believe that the right solution for all clients is one that enables future expansion and adoption of centralised enterprise class technologies, which is only possible with clever connectivity – something that Panoptics is perfectly placed to deliver.

We are proud of our partner relationships and firmly believe that our collaborative, transparent approach to service delivery provides our customers with the highest quality solution and genuine value.

We're always available to discuss any IT Project and would welcome the opportunity to talk it through. Get in touch now and we're confident we will find the perfect solution for your business.
