# Panoptics recognised for SD-WAN expertise

Panoptics Achieves VMware  
Software-Defined Wide Area  
Network Solution  
Competency

Leading SD-WAN and IT service provider Panoptics are pleased to announce it has achieved the VMware Software-Defined Wide Area Network (SD-WAN) Solution Competency. In achieving the competency, Panoptics is recognised for its expertise in VMware SD-WAN by VeloCloud and their ability to strategically advise and help customers looking to simplify their complex networks, improve application performance and reduce network costs.

A clear demonstration of Panoptics growing reputation as one of the UK's leading SD-WAN service providers, the competency ensures the awarded partner has expert knowledge to sell, architect, deploy and manage VMware SD-WAN to Enterprise customers across the globe.

## About VMware SD-WAN

VMware SD-WAN by VeloCloud simplifies branch WAN networking by automating deployment and improving performance over private, broadband Internet and LTE links for today's increasingly distributed enterprises.

A proud recipient of many prestigious industry accolades, VMware SD-WAN by VeloCloud is recognised as a global leader in the growing SD-WAN industry.
