# Product Supply

Panoptics delivers hardware and software supply which precisely matches requirement with purchase, guaranteeing the right solution is implemented every time. Independent advice combined with supply chain expertise & competitive supplier relations ensures best of breed technology is sourced and deployed at the right price to align perfectly with your business objectives.

## Service Description

Panoptics helps you make the most of your IT budget by offering the complete solution, from design to management – taking away the headache of IT procurement and ensuring your business maximises value from every investment.

Our experience, consultative approach and strong supplier relationships means that we source only the best fit technology for your requirement, from servers, desktops, telephony equipment & software all the way through to complete infrastructure setups.

Furthermore, Panoptics offers as standard – expert advice along with access to value added services including design, deployment, management and optimisation allowing you to relax in the knowledge that your IT product supply is in safe hands

## Benefits

- **Maximise IT budget** – lower the total cost of ownership through smarter procurement and our dedication to deploying the most appropriate solution
- **Expert advice** – benefit from our authoritative, independent advice and get the exact solution that matches your specific business needs
- **Eliminate risk** – leverage our expertise and best practice framework to ensure all IT hardware and software is purchased right first-time and fulfils your IT objectives

- **Improve technology** – access new & emerging technologies whilst minimising capital investments and staying at the forefront of IT developments

## Software

Panoptics offers a range of software services from subscriptions & volume licencing to software asset management. Our services ensure you get the very best licensing deals available to the market combined with rapid deployment and ongoing support. Our expertise guarantees our clients only purchase the software that's required from trusted, established and cost-effective suppliers – accelerating the time to return on investment and maximising value from the purchase.

## Subscriptions

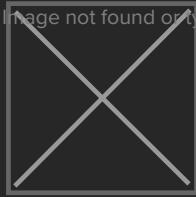

Panoptics software specialists can offer the complete subscription solution, ranging from straight forward software provision & volume licensing through to a fully managed subscription service. Our service ensures your company optimises it's software deployment, remains compliant and up to date whilst subscribing to the most cost-effective deals available.

## Hardware Maintenance

Whatever technology your business owns, Panoptics will ensure that the relevant support options are available and offered to you. Ranging from Cisco Smartnet to HP Carepaq's we will provide your business with the Point of Sale offerings or co-termed contracts necessary to bring together existing and new infrastructure support agreements. When coupled with our 3rd Party Management service, we will also manage the lifecycle of the agreement on your behalf which will ensure that technologies don't slip out of support and your business always gets the best value for money.
